Dear Mr. Secretary-General

It gives me great pleasure, on behalf of West Sealand International Limited, to confirm or support of the ten principals of the Global Compact, encompassing human rights, labour, environment and anti-corruption.

We do and will continue to advance the principals of Global Compact to all whom we encounter. Global Compact, its principals and aims are at the core of our strategy, operations and culture, and form a central element of our broader partnerships and market commitment, especially in terms of anti-corruption and equality of labour. It is a commitment we will continue to make central to our relationships and business actions.

We will be pleased to provide an annual Communication on Progress (COP) submission, within one year of joining the Global Compact and annual thereafter or as required by COP policy, to include;

- A letter from our Chief Executive Officer re committing WSI's support for Global compact and describing how we will continue to progress its principals and goals.
- Actions, policy and procedural development implemented or due for implementation to support Global Compact within, Human rights, labour, environment and anti-corruption.
- Qualitative data appertaining to the actual performance of WSI in meeting the principals of Global Compact.

We would welcome the opportunity to be accepted to join the United Nations Global Compact.

Yours sincerely

Mike Allen  
Chief Executive Officer  
West Sealand International Limited
