Dear Mr. Secretary General,

23 August 2010

I am pleased to confirm that Abdi İbrahim İlaç San. ve Tic. A.Ş. supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence.

Throughout its history since 1912, Abdi İbrahim has always been a company that conveys the strength of its past into the future. Dedicated to provide medicines and products for the well being of humanity with a pioneer and innovative approach, Abdi İbrahim is today a well respected, widely preferred, global actor that grows more rapidly than the Turkish pharmaceuticals market.

The first Turkish company that ranked among the top 100 pharmaceutical companies in the world, Abdi İbrahim, from 2003 onwards is the leader of the pharmaceutical sector in Turkey in terms of annual turnover and the number of boxes sold.

Placed 94th in the "Largest 500 Industrial Companies in Turkey" report, Abdi İbrahim, with its expert and competent workforce of 3000 that includes the largest number of employees in the marketing and sales disciplines, represents the biggest source of employment in its sector.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely,

Mr. Nezih Barut

Chairman of the Abdi İbrahim
