Dear Mr. Secretary General,

With this letter we, Stichting AIESEC Nederland, would like to show that we support the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment letter, we express our goal to support the Global Compact in advancing these principles. Furthermore, we will make a clear statement of this commitment to our stakeholders and our general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- Proposing and implementing partnerships on corporate sustainability and pursuing collaborations with other stakeholders
- Engaging with Global Compact Local Networks
- Joining and/or supporting issue platforms and work streams
- Continuing to engage youth to take action on the SDGs
- Educating our membership on the SDGs

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication of Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,
