Dear Mr. Secretary-General,

I am pleased to confirm that ContourGlobal supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. We bring new sources of electricity to historically under-served markets, and improve people's lives by offering reliable, affordable energy that promotes economic growth and social well-being. We provide cleaner, more efficient energy using new applications of existing solutions and employing innovative technology. Whether generating cost-effective energy in new markets, providing reliable energy in high-growth, under-served markets, or innovating in developed markets, we build, own and operate businesses that improve the quality of life for clients, partners, and communities.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. ContourGlobal will make a clear statement of this commitment to our stakeholders and to the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

A handwritten signature in black ink that reads "Joseph C. Brandt". The signature is fluid and cursive, with a large initial 'J' and 'C'.

Joseph Brandt
