Dear Mr. Secretary-General

We are pleased to confirm that Creel, García-Cuéllar, Aiza y Enríquez S.C., supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption. With this letter, we express our intent to advance those principles within our sphere of influence.

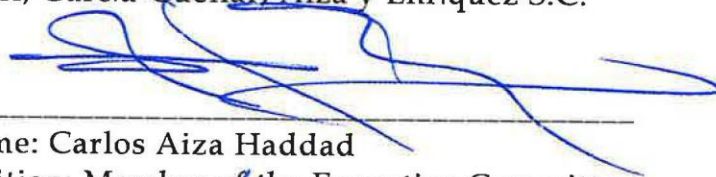

We are committed to making the Global Compact and its principles part of the strategy and day-to-day operations of our firm, and to engaging in collaborative projects which advance the broader development goals of the United Nations, such as the Sustainable Development Goals. Creel, García-Cuéllar, Aiza y Enríquez S.C., will make a clear statement of this commitment to our stakeholders and the general public in 2018.

We recognize that a key requirement for the participation in the Global Compact is the annual submission of a Communication on Progress ("COP") that describes our firm's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and every year thereafter according to The Global Compact COP policy.

At our firm, we are convinced that Corporate Social Responsibility should always be part of a well-rounded business model and we believe that the Global Compact's principles complement our already established Social Responsibility Model and will allow us to expand this model and create more awareness in regards to social responsibility in Mexico and the legal industry as a whole.

Sincerely,

Creel, García-Cuéllar, Aiza y Enríquez S.C.
