Dear Mr. Secretary General,

I am pleased to confirm that Chakwal Associates Engineering Technology (CAET) Pakistan supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): by participating on local, regional, national and international level. We will make it possible through different awareness campaigns including training sessions, education society organizations, colleges, Technical Institutes, and all other relevant stakeholders.

Chakwal associates engineering technology is a not-for-profit, non-governmental, and non-political organization. Our mission is to promote education and academic facilities by means of establishing academics, technical institutions and support for education purposes to promote technical educational excellence by challenging our students to become experts.

For an organization to receive a "nonprofit" designation and to qualify for the tax-exempt status, it must further religious, scientific, charitable, educational, literary, public safety or cruelty prevention causes or purposes. It must generate some public benefit also.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Irfan Iftikhar Gujjar
Chairman Director
