USA

DEAR MR. SECRETARY-GENERAL,

I am pleased to confirm that *Outotec* supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. Outotec is a global leader in sustainable minerals and metals processing technologies and an innovative provider of sustainable energy and water processing solutions. With this communication, we express our intent to advance those principles within our sphere of influence.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. *Outotec* will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

Pertti Korhonen
President and Chief Executive Officer
Outotec
