New York, NY 10017
USA

Oikos East Africa supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

A. ENVIRONMENT

Participation: By addressing Climate Change Issues through promotion of good practices in development to enhance community resilience against effects of climate change. We do this by developing and implementing community projects

Engagement: By assuming active responsibility to contribute to development and implementation of Climate Change Policy

B. WATER AND SANITATION

Participation: By cooperating with Institutions of higher learning like Universities to develop acceptable and affordable water and sanitation facilities and procedures

Engagement: By finding and sharing experience with Partners through the UN Water Action Hub. Currently, Oikos is a member of the Tanzania Water and Sanitation Network (TAWASANET).

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE Policy.

Sincerely yours
