Dear Mr. Secretary General,

I am pleased to confirm that Busara Center for Behavioral Economics supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

1. Manage impacts and opportunities affecting employees, workers in the value chain, customers and local communities.
2. Support economic development of the societies in which we operate, leading to good governance and stability.
3. Help deliver on our world's priorities through action and collaboration, ensuring a better future for all.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

James Vancel
