

25 January 2018

H.E. António Guterres  
Secretary General  
United Nations (UN)  
New York, NY 10017  
USA

Sir,

**Commitment to the UN Global Compact**

I am writing from Genesis Analytics (Pty) Ltd, an economics-based consulting firm headquartered in Johannesburg, South Africa. Established in 1998, Genesis Analytics works across varied sectors, using our analytical capabilities to improve decision-making and through better decisions, unlock substantial value for our clients and society.

I am pleased to confirm that Genesis Analytics supports the Ten Principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. As a responsible business, we are committed to aligning our strategies and operations with these universal principles. Driven by our purpose to unlock value that is measurable, we are also committed to engaging in partnerships that advance the broader UN Sustainable Development Goals (SDGs).

As a signatory, we understand that accountability matters and recognise the requirement to submit an annual Communication on Progress (COP) that outlines our efforts to operate responsibly, at all times and support society, meaningfully. We therefore commit to report on progress annually after joining the UN Global Compact, and will ensure the following is communicated, in accordance with the COP Policy:

- A statement by the chief executive expressing continued support for the UN Global Compact and renewing commitment to the initiative;
- A description of practical actions the company has taken or plans to undertake to implement the Global Compact principles; and
- A measurement of outcomes.

Regards,

Stephan Malherbe  
Chairperson, Genesis Analytics (Pty) Ltd

**Genesis Analytics (Pty) Ltd**  
The largest economics-based consultancy in Africa
