Dear Mr. Secretary-General,

I am pleased to confirm that *JK Sucralose Inc.* supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. *JK Sucralose Inc.* will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

# JK Sucralose Inc.

Commitment to the ten principles of the United Nations global compact.

The company solemn promise, will support the United Nations global compact in the field of human rights, Labour, environment and anti-corruption esteem the ten principles, fully implement the company's strategy, operations and culture, and the UN global compact and the principles involved in the decision process, top management actively participate in and partnership, recommend the realization of the broader development goals.

We have worked hard to implement the universal contract principle in the marketplace, the environment, the workplace, and our community. We accept, support and implement a set of core values in the context of the company's impact: human rights, labor standards, the environment and anti-corruption.

## Human rights

Principle 1: enterprises should respect and maintain internationally recognized human rights.

Principle 2: never engage in any disregard for human rights violations.

## Labour standards

Principle 3: the enterprise should maintain the freedom of association and recognize the right of collective bargaining.

Principle 4: eliminate all forms of forced labor.

Principle 5: effective abolition of child Labour.

Principle 6: eliminate any discriminatory practices in employment and industry.

## The environmental protection

Principle 7: companies should plan ahead for environmental challenges.

Principle 8: actively increase the responsibility for environmental protection.

Principle 9: encourage the development and promotion of environmentally sound technologies.

## The anti-corruption

Principle 10: companies should oppose all forms of corruption, including extortion and bribery.

We continue to focus and invest in the implementation of the global compact principle, and continue to move forward as we strive. Our next goal will be to partner on the value chain, we will use their own way to influence our partners, to ensure that they can comply with the principles of the global compact, we believe that we are by no means an island of the implementation of the global compact, but the pursuit of "globalization" of the global compact, it is the goal of our further efforts.
