Dear Mr. Secretary General,

I am pleased to confirm that IMA World Health supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our organization, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

IMA World Health will make a clear statement of this commitment to our stakeholders and the general public. We also pledge to participate in and engage with the UN Global Compact in the following ways:

- Partner with organizations and communities serving the most vulnerable, in order to end poverty, injustice and human suffering
- Engage UN Global Compact business participants as they implement and report on their sustainability efforts.
- Connect with UN Global Compact local networks for synergy on our shared efforts to meet the principles.
- Support issue platforms and workstreams that best fit with our scope of work, such as gender equality, climate change and food and agriculture.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely,

A handwritten signature in black ink that reads "Daniel Speckhard".
