Dear Mr. Secretary General,

I am pleased to confirm that CARE International UK supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anticorruption.

With this commitment, we express our intent to support the UN Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- Work in partnership with businesses to promote women's economic empowerment, decent work, environmental sustainability and anti-corruption measures
- Engage with Global Compact Local Networks to share the evidence from our work and best practice to promote the above
- Support UN Global Compact business participants, and support work streams to work collectively on the issues above.

We recognise that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organisation's efforts to support the implementation of the ten principles and to engage with the Global Compact.

We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two year hereafter according to the Global Compact COE policy.

Sincerely yours,

Laurie LEE
