Dear Mr. Secretary-General,

Please find enclosed our statement demonstrating Vivid Economics commitment to the ten principles of Global Compact with respect to human rights, labour, environment and anti-corruption.

With this letter we express our intent to advance these principles within our sphere of influence. We are committed to ensuring that Global Compact and its principles form part of our strategy, culture and the daily delivery of our work. We are also committed to working in a collaborative manner which advances the broader development goals of the United Nations, particularly the Sustainable Development Goals. Vivid Economics will make a clear statement to our stakeholders and the general public on our commitment to this matter.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support the public accountability and transparency, and therefore commit to report on progress within *one year* of joining Global Compact, and *annually* thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the Managing Director expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e. disclosure of any relevant policies, procedures, activities) that the company has taken (or plan to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment and anti-corruption).
- A measurement of outcomes (i.e. the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely,

John Ward
Managing Director
