Dear Mr. Secretary-General,

FHI 360 is an international human development NGO dedicated to the improvement of lives through sustainable, integrated, and locally driven solutions. Over that last 40 years, FHI 360 has worked to advance the mission of development needs in human rights, labour, environment and anti-corruption represented in the Ten Principles of the United Nations Global Compact. With this communication, we express our intent to implement those principles.

We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our organisation, and to engage in collaborative projects with donor, corporate and foundation partners which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. FHI 360 will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the UN Global Compact is the submission of a Communication on Engagement (COE) that describes our organisation's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the UN Global Compact, and every two years thereafter according to the UN Global Compact COE policy.

Sincerely yours,

Patrick C. Fine, MEd
Chief Executive Officer
