Dear Mr. General-Secretary,

I am pleased to confirm that Moveco, S.A. supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Moveco, S.A. will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- Make the UN Compact Goals our local business by driving awareness and responsible business action to support the achievement of such goals.
- Above all, support, respect and protect the human rights of every member within the company, that does not exist any forced labour. Implement initiatives to promote greater environmental responsibility and working against corruption in all forms.
- An input-output income regarding the activities and processes implemented to comply with the new goals and targets.

Sincerely yours,

Mr. Leonel Ruiz Segura
CEO, Moveco S.A.
