Dear Mr Secretary-General

I am pleased to confirm that the Corporation of Lloyd's supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. This letter confirms our intent to implement these principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of the Corporation, and to engaging in collaborative projects which advance the broader development goals of the United Nations - particularly the Sustainable Development Goals. The Corporation of Lloyd's will make this clear in our internal and external communications.

We recognise that a key requirement for participation in the UN Global Compact is an annual submission of a Communication on Progress (COP) that describes the Corporation's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to reporting on our progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the Chief Executive of the Corporation of Lloyd's expressing continued support for the UN Global Compact, and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions that the Corporation of Lloyd's has taken, or plans to undertake, to implement the UN Global Compact principles and a measurement of outcomes.

Yours sincerely

Inga K Beale
Chief Executive Officer
