Dear Mr. Secretary-General,

I am pleased to confirm ObEN, Inc.'s support of the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. Consideration of human rights is embedded in both ObEN's core values and company vision - including application and expansion of these rights within the technology space.

With this letter, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture, and operations of ObEN, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. ObEN will make a statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP Policy. Annual COP reports will include an affirmation of ObEN's continued support and renewal of ongoing commitment to the initiatives and principles of the UN Global Compact, a description of actions undertaken in pursuit of this commitment, and a measurement of the outcomes of said actions.

Sincerely yours,
