Dear Mr. Secretary-General

RE: UN Global Compact membership application for OceanaGold

OceanaGold Corporation supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

I am writing to you to express our intent to implement those principles by making them part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects to advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

As members, OceanaGold Corporation will make a clear statement of this commitment to our various stakeholders.

We recognize a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on our progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

This report will be made annually in our Sustainability Report, and will include:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) the company has and plans to undertake to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely
