Dear Mr. Secretary General:

I am pleased to confirm that Starcamp SV - Starturk, Inc. supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact in advancing these principles, and will make a clear statement of this commitment to our stakeholders which include the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- Conduct applied research and thought leadership to advance best practices across Silicon Valley.
- Promote the UN Global Compact Ten Principles and educate the entrepreneurs about sustainability.
- Support as requested the UN Global Compact business participants, Tech startups in particular, in implementing and reporting on their sustainability.
- Promote the Ten Principles as well as the SDGs throughout our both incubation and acceleration programs.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Progress (COP) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy.

Sincerely yours,
