Dear Sir

### **Letter of Commitment to participate in the Global Compact**

Society for Family Health ("SFH"), a charitable, non-governmental Organisation registered in Nigeria writes to commit and support the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, SFH wishes to express our intention to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact by joining and supporting issue platforms and work streams particularly in the areas of advancing sustainability goals.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes SFH's efforts to support the implementation of the ten principles and to engage with the Global Compact. SFH supports public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Yours Sincerely  
**Society for Family Health**

Bright Ekweremadu  
**Managing Director**
