Mr. Secretary-General,

I am pleased to confirm that Mozayix International, Inc. supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. With this communication, we express our intent to implement those principles in all our projects world-wide. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of Mozayix, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Mozayix has made a clear statement of this commitment to our shareholders, our employees, our partners and the public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one-year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions that the company has taken to implement the UN Global Compact principles in each of the four issue areas of human rights, labor, environment and anti-corruption.
- A measurement of outcomes including the degree to which performance targets were achieved.

Sincerely yours,

Mr. Jake R. Allen
President and CEO
