Dear Mr. Secretary-General,

I am pleased to confirm that **TATANYK SHIPPING PTE LTD** supports and will continue to support in future the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we would also like to share that, we have in many ways implemented part of these Ten Principles with our employees, in offices ashore and on ships at sea, through our company policies and various initiatives. We are committed to rigorously uphold and improve ways in support of the UN Global Compact and its principles, through our strategy, culture and day-to-day operations of our company.

We will engage in collaborative projects which will advance the broader development goals of the United Nations, particularly the Sustainable Development Goals and implement where it is not already done so within our company, through our policies to support this cause. **TATANYK SHIPPING PTE LTD** will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Mr. Dinesh Shastri
Managing Director
