Dear Mr. Secretary-General,

I am pleased to confirm that Golden Swan supports the ten principles of the UN Global compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles appropriately and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: conduct the hazardous waste awareness programmes and upgrade the platforms of effective waste management across the parts of Western Africa by means of '4Rs' concept. Keeping an eye on to a way of sustainable development for the betterment of our planet. Acting as a sponsor and participant in the social causes for the humanitarianism. Stimulating the harmony for peace across the society and enhance the effective accountability in the waste management. Promoting the environmental and social causes across the western Africa.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

We also assure to get involved in the environmental initiatives and social causes within our sphere of influence, organizing by the UN Global Compact.

Sincerely,

RAKESH. H. DUDHAT

CHAIRMAN & MANAGING DIRECTOR, GOLDEN SWAN
