Dear Mr. Secretary-General,

Al Naboodah Group Enterprises (ANGE) is a family owned business from the United Arab Emirates that has been in operations for 60 years, ANGE has a diverse business portfolio and therefore our activities can have a wide impact on both those that we do business with and society as a whole. As a family and as a business we are committed to creating practices that are respectful for the environment the wellbeing of our employees and the prospects of future generations. We started reporting on our sustainability performance since 2016 in accordance with the GRI standards.

I am pleased to confirm that Al Naboodah Group Enterprises (ANGE) supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals, ANGE will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely,

Swaidan Saeed Juma Al Naboodah
