**New York, NY 10017**  
**USA**

Dear Mr Secretary-General

I am pleased to confirm that Camargo e Gomes supports the ten principles of the Global Compact. We find that the compromise with human rights, labour, environment and anti-corruption is essential in our policies.

Considering that, we would like to confirm our commitment with those principles within our sphere of influence. Our compromise is to make the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company. Also, we ought to take part in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Our company, Camargo e Gomes, will make a clear statement of this commitment to our partners and the general public.

A Communication on Progress (COP), with a full explanation of our company's efforts to implement the ten principles, will be submitted annually, as we recognize that this is a key requirement for participation in the Global Compact. We support public accountability and transparency, and therefore commit to send a progress report within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).
