Dear Mr. Secretary- General,

I am pleased to confirm that *Consorzio Rilegno* supports your strategies about universal principles on human rights, labour, environment and anti-corruption.

My attention has been drawn to three points in particular

- **Principle 7: businesses should support a precautionary approach to environmental challenges;**
- **Principle 8: undertake initiatives to promote greater environmental responsibility;**
- **Principle 9: encourage the development and diffusion of environmentally friendly technologies.**

Our Company truly believes and really cares about the mission of UN Global Compact, especially the Sustainable Development Goals (12) about Sustainable consumption and production; *Rilegno* also supports projects focused on educating consumers on sustainable consumption and lifestyles.

We recognize that a key requirement for participation in Global Compact is the annual submission of a Communication in Progress (COP) that express our Company to fulfill the ten principles. This includes:

- The ongoing commitment to do business responsibly by aligning our strategies and operations with Ten Principles and SDGs;
- In order to implement the Global Compact principles, *Rilegno* has launched a virtuous cycle of production that includes sustainable production and consumption;
- In 2017 *Rilegno* has recovered and recycled 1.793.748 ton of wood.

Sincerely Yours  
The President of *Consorzio Rilegno*  
Nicola Semeraro

**Rilegno**
