Object : Letter of Commitment – UN Global Compact

Dear Mr. Secretary-General,

I am honoured to confirm that Azzana Consulting supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance and to promote those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which encourage the broader development goals of the United Nations, particularly the Sustainable Development Goals. Azzana Consulting will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

This includes :

1. A statement signed by the chief executive expressing continued support for the Global Compact and its principles
2. A description of practical actions taken and expected to support UN goals (operations, business practices, process, policies)
3. A measurement of outcomes of our actions

Sincerely yours,

Michael Van Geertruy,
Managing partner
