Dear Mr. Secretary General,

I am pleased to confirm that our Organization ***“Charitable Association for Rheumatic Diseases [CARD]”*** supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact implementing these principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our organization and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Our organization will make a clear statement of this commitment to its stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact by sticking to its principles and aligning our mission *“to develop programs and projects aimed at achieving the highest levels of psychological, social and moral support for patients with rheumatism and to reach the beneficiaries of the society and their families and all groups of society to fully understand rheumatic diseases and cooperation and activate strategic partnerships with the relevant authorities to achieve the vision of the society,”* in accordance to the principles of UN Global compact and in compliance with the national, regional and international regulations.

We recognize that a key requirement for participation in the Global Compact is the submission of Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to UN Global Compact COE policy.

Sincerely yours,

Mohammed Ahmed Omair
Chairman
