Dear Mr. Secretary-General,

BlackBerry has a clear purpose to advance how the world communicates, driven by the belief that connection makes society better. We live our purpose everyday through our company values and by putting ethics at the forefront of every decision we make.

BlackBerry supports the ten principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. I am pleased to confirm our commitment to advancing these principles through the company's operations.

We will make a statement of our commitment to our stakeholders and keep you informed of our progress through the annual submission of a Communication Of Progress (COP).

Sincerely yours,
