RE: COMMITTEMENT LETTER

With this letter, Sustainable Business Consulting confirms our commitment to the ten principles of Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Sustainable Business Consulting will make a clear statement of this commitment to our stakeholders and the general public.

We this letter we further commit to the annual submission of the Communication on Progress (COP). We would also like that the COP will include the three necessary elements (statement signed by the chief executive expressing continued support for the Global Compact, a description of practical actions, and a measurement of outcome)

Your sincerely
