Respected Mr Secretary General,

I am pleased to confirm that SOLVE, a youth-led community with initiatives backed by data, innovation and technology, understands that this is a significant responsibility and look forward to working with the team and provide my commitment to:

- Support the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption.
- Support and engage with the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.
- Participate in and engage with the UN Global Compact in the following ways:
  1. Propose and implement partnerships on corporate sustainability and engage with other stakeholders.
  2. Support UN Global Compact business participants as they implement and report on their sustainability efforts.
  3. Work towards fundraising and program activities
  4. Provide my expertise to ensure the well-being and success of the organization

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Yours Sincerely

For SOLVE
