

27th May 2019

H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to confirm that Arimac Lanka (Pvt) Limited, supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Arimac will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy

Enabling Digital disruption in a transformative market such as Sri Lanka has been challenging since the inception of Arimac. Yet, I am proud to state that Arimac has been successful throughout the journey of more than 8 years. Beginning the Journey as a Startup We have always strived to disrupt the organizations we work with by assisting them and being the local interface of the international ICT arena. In a developing country like Sri Lanka, ICT plays a major role. Our objective is always to contribute to the nation by setting high benchmarks in the digital development industry as our aim to reclaim the technology prowess of our ancestors.

We provide digital services in key pillars such as; Mobile and Enterprise Solutions, Artificial Intelligence & Machine Learning, Immersive Technologies, and Game Design and Development. Whilst we strive to deliver our services in an accelerated delivery model to our esteemed client portfolio, we currently focus on sustaining innovation through

transforming digital services to “Productized Service” model, enabling us to digitally disrupt thousands of consumers around us. We innovate by accessing the globally available knowledge and latest technologies through our well experienced and highly skilled professionals. We are experts in customizing the global technologies to suit the local scenarios and extend those productized services not merely among Sri Lankans but also enhancing our services beyond Sri Lankan waters and targeting consumers around Asian Emerging Countries.

Arimac always believe in ethical business practices. Thus, we at Arimac, adhere to a standardized approach to set and achieve goals guided by UN Global Compact. This in return benefits the organization, stake holders and the country as a whole. Apart from commercial purposes, we always contribute to the well-being of the society as a socially responsible corporate citizen. All our CSR initiatives are geared towards linking the gap between the rural and the urban with a digital bridge aiming at prevention of brain drain.

We believe that our commitment towards Global Compact is a responsibility that we must undertake to drive our company and its stake holders to success while serving the country. We will continue to strive hard to ensure that we improve and enhance our practices in the years to come.

Yours Sincerely,

Chamira Jayasinghe

CEO / Founder
