Dear Mr. Secretary-General

I confirm Biowater Technology AS commitment to the ten principles of UN Global Compact, taking action in support of UN goals, and the annual submission of the Communication on Progress (COP);

With this communication, we express our intent to advance those principles within our sphere of influence, in particular regarding Environmental Technology. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations. Biowater Technology AS will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

- A statement signed by the chief executive expressing continued support for the Global Compact
- a description of practical actions
- A measurement of outcomes.

Sincerely

Mr. Ilya Mario Savva
Chief Executive Officer
Biowater Technology AS
