Dear Mr. Secretary-General,

I am pleased to confirm Suncorp Group's support of the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

Becoming a UN Global Compact signatory aligns with our purpose to *Create a better day for our customers* and Corporate Responsibility Principles and Framework. We know that a commitment to long-term, sustainable growth for our shareholders requires consideration and active management of the environmental, social and governance (ESG) risks and opportunities faced by our business, customers and communities now and into the future. This includes consideration of ESG factors in our strategy, culture and day-to-day operations.

In becoming a UN Global Compact signatory, Suncorp Group will commit and report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact policy. This will be captured within our annual reporting disclosures, and include:

- An annual statement expressing continued support for the UN Global Compact and Principles.
- A description of practical actions Suncorp has taken (or plans to undertake) in line with the Principles.
- Progress against relevant metrics, targets or other appropriate performance indicators.

We look forward to engaging in the UN Global Compact program and in local and global opportunities to advance the broader United Nations Sustainable Development Goals.

Regards,

Steve Johnston
