Dear Mr. Secretary General,

I am pleased to confirm that The Building Center of Japan (BCJ) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):
Contribute to the achievement of SDGs through the development and dissemination etc. of guidelines that present general procedures for companies in the building and real estate industries of Japan to implement initiatives of SDGs.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

橋本公博

Kimihiro Hashimoto

President
