Dear Mr. Secretary-General,

I'm pleased to confirm that Inter Futura S.R.L. a socio unico supports the ten principles of the Global Compact in respect to human and labor rights. Our mission is to use the values of sport and the game of football as a tool to implement education for thousands of needy children and adults in 30 countries around the world. Since 1997 the project contributes to the development of the local communities, supporting educational, social and sanitary protection programs carried out by local partners and promotes social integration among differing ethnic groups and cultures.

With this communication, we express our intent to support and advance those principles within our sphere of influence. We commit to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company and undertake to make a clear statement of this commitment our employees, partners, clients and to the public.

We recognize a key requirement for participation in the UN Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's effort to support the implementation of the ten principles and to engage the with the Global Compact policy. This includes to send annual report of the activity:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions that the company is taken to implement the principles.

Please find attached some general information regarding our company as well as the contact person responsible for contacts with the office of the Global Compact.

Sincerely yours,

President
