Dear Mr. Secretary-General,

I am pleased to confirm that Internet Central supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. We hereby express our commitment to implement those principles and have begun planning our activities in earnest. We identify the significance of the UN Global Compact and its principles as key to ethical business and will uphold this in the company's strategy, culture and day-to-day operations. Internet Central will proactively engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals and promote the agenda locally. We will make a clear statement of this commitment to our stakeholders and the general public.

As an advocate of transparency and accountability, we are committed to the key requirement to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This report will describe Internet Central's efforts to implement the Ten Principles, and will include:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption)
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Mr Jonathan Edge
Director, Internet Central
