Dear Mr. Secretary-General,

I am pleased to confirm that *Fincantieri S.p.A* supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. For Fincantieri sustainability is not just an opportunity but a genuine mission. We want to represent a model of excellence and be able to face the current and future challenges of the markets by creating a long-term sustainable value for all our stakeholders. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals by focusing on goals 7-Affordable and clean energy, 8-Decent work and economic growth, 9-Industry, innovation and infrastructure, 12-Responsible consumption and production, 13-Climate action, 14-Life below water. *Fincantieri S.p.A.* will make a clear statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Mr. Giuseppe Bono  
Chief Executive Officer
