Aalesund, 02.12.2019

Dear Mr. Secretary-General,

I am pleased to confirm that Hexagon Composites supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence.

We are committed to incorporate the Global Compact and its principles as part of our long-term strategy and day-to-day operations, as well as to engage in collaborative projects which advance the broader development goals of the United Nations. Hexagon Composites will make a clear statement of this commitment to our stakeholders and general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support the public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

Jon Erik Engeset
