Dear Mr. Secretary General,

I am pleased to confirm that *the Korean Association for Anti-Corruption Policy Studies* supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way. We suggest the alternatives of the theoretical ideas with taking part in the seminar. Also, we would participate in the world voice regarding human rights and anti-corruption issues via world press and media with your organization anytime..

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

Yong Chul Kim

President / The Korean Association for Anti-Corruption Policy Studies
