### Letter of commitment

Dear Mr Secretary-General,

I am pleased to confirm that **Pro Sustainability** supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anticorruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects, which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

**Pro Sustainability** will make a clear statement of this commitment to our stakeholders and the general public, also will be work together with the clients to promote and implement the SDGs in their business activities, with the intention to grow up a best cases business network in Austria and in relation with other countries.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our on-going commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of our practical actions (i.e., "[Nur 5 Schritte zu deinen betrieblichen SDGs](#)", "promoting the disseminations of the SDGs",...) that the company has taken (or plans to undertake) to contribute to the implementing of the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets / performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely.
