Dear Mr. Secretary General,

I am pleased to confirm that Georgian Waste Management Association supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment we express our interest to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: disseminate information regarding and promote ten principles of the UN Global Compact among the association members and partners, participate in and organize environmental events, provide consultation about modern standards in waste management for the interested parties from Global Compact Network Georgia and support in implementation principles of integrated waste management, take into account the interests of the Global Compact Network Georgia member companies and organizations while having dialogue with the decision makers and lobbying with the government.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's effort to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Giorgi Guliashvili

President of the Georgian Waste Management Association
