Oslo, 27th of February 2020

I am pleased to confirm that Höegh Autoliners AS supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this letter, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of our strategy, culture and day-to-day operations, to advance the broader development goals of the United Nations. Höegh Autoliners will make a clear statement of this commitment to our stakeholders and the general public.

Public accountability and transparency is important to us. Therefore, we commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy in order to describe our company's effort to implement the Global Compact Principles. From heron, we commit to:

- Provide a statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- Provide a description of practical actions that the company has taken or plans to undertake to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- Provide measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours faithfully

Thor Jørgen Guttormsen
Chief Executive Officer, Höegh Autoliners
