Dear Mr Secretary-General,

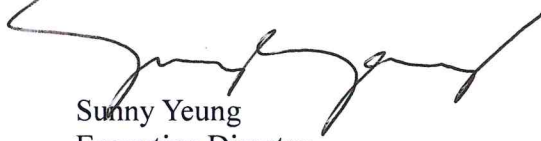

Sino Land Company Limited, a constituent member of the Hang Seng Index and the Hang Seng Corporate Sustainability Index Series, is a committed advocate of sustainability and governance. The Company has a multifaceted ESG Framework in place and seeks to incorporate sustainability into its business operations to create long-term value for customers, employees, business partners, shareholders, investors as well as the community as a whole.

On behalf of our Sustainability Committee, I am pleased to confirm that Sino Land Company Limited supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

We support public accountability and transparency. We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by Executive Director expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes

Sincerely yours,

Sunny Yeung
Executive Director
