

H.E. António Guterres

Secretary-General United Nations
New York, NY 10017 USA

Dear Mr. Secretary-General,

I am pleased to confirm that *Erfo s.p.a.* supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. *Erfo s.p.a.* will make a clear statement of this commitment to our stakeholders and the general public.

Furthermore, the commitment of management and employees towards issues related to sustainability, and its variations, has been lavished for some time. Therefore, our business will be managed in compliance with the principles that the UN Global Compact is inspired by.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the Chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions, which means disclosure of any relevant policies, procedures and activities that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes, like the performance indicators were met, other qualitative or quantitative measurements of results. And the way to reach goals.

Sincerely yours,

Mr. Alessandro Cutè

CEO Chief Executive Officer
