Dear Mr. Secretary-General,

I am pleased to confirm that Participant Media, LLC (Participant) supports the ten principles of the Global Compact with respect to human rights, labor, environment, and anti-corruption. Participant is driven to shine light on these global issues using content, and we are committed to adding the UN Global Compact, and its principles, to the strategy; culture; and daily operations of the Company.

Participant combines the power of a good story well told with real world impact and awareness around today's most vital issues. Over the company's fifteen-year history we create content for films, TV and digital platforms that provide paths for our audience to make change. We work with incredible individuals and organizations to raise awareness of the most vital issues of our time. With this letter, we express our commitment to continue to use our platform to address the Global Compact's ten-principles, as well as the seventeen SDGs, within our sphere of influence.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter in accordance with the Global Compact COP policy.

Sincerely,

David Linde  
Chief Executive Officer
