Dear Mr. Secretary General,

I am pleased to confirm that BRFfonden supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We pledge to participate and engage with the UN Global Compact where appropriate and feasible, for example in our capacity as an investor and in our work with constructing student dormitories. We will engage with the compact through the implementation of our responsible investment strategy, through encouraging business partners to follow the principles and by promoting the principles in external communication.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

Kristian May
CEO
