Dear Mr Secretary-General,

Oasis Management Consultancy recognises the scale of challenges the world faces within the areas of human rights, labour, environment and anti-corruption. I am pleased to confirm that Oasis Management Consultancy supports the Ten Principles of the United Nations Global Compact on these four areas.

With this communication, we express our commitment to ensuring the UN Global Compact and its principles form an integral part of our company strategy, culture and our day-to-day operations, to advance the UN Global Compact principles through the work that we do, including our engagements in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Oasis Management Consultancy will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement these ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

This includes: a statement signed by the Company's Managing Director expressing continued support for the UN Global Compact, a description of practical actions that Oasis Management Consultancy has taken to implement the UN Global Compact principles in each of the four issue areas, and a measurement of the outcomes of the actions we have taken.

Yours faithfully,
