Dear Mr. Secretary General,

I am pleased to confirm that CatchUp Georgia supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

CatchUp • Georgia is an information portal that serves the UN's Sustainable Development Goals 2015, promoting it and highlighting the situation in Georgia. Objectives are part of the sustainable development agenda and focus on three interrelated elements of sustainable development: economic growth, social inclusion, and environmental protection. We believe that it is necessary to raise awareness throughout Georgia regarding the problematic issues that are constantly relevant in society.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): to conduct applied research and thought leadership to advance best practices, promote the UN Global Compact Ten Principles and educate a variety of audiences about sustainability in Georgia, to promote the UN Global Compact Ten Principles and educate a variety of audiences about sustainability.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,
